## Venue Showcase Reports

What better way to understand your venue than to experience it. A seasoned member of the Delegate Wrangler Team will visit to find out more about your amazing venue.

We'll then publish an article, detailing our experience on our website and promote across social media channels, including LinkedIn. This will showcase your venue to our highly targeted audience of event professionals. We'll also produce a short 'Reel' that lives on our Instagram page, creating a wider reach and igniting interest before publishing the article. The report will also feature in our Insider newsletter. You can view our previous showcases [here](#)
